GAZETTE CLEANINGS.

The Pacific express came in on time yesterday and doubled back from this point.

A number of arrivals at the Hot Springs yesterday. The hotels are pretty full.

The Santa Fe Presbytery is to meet in Las Vegas on September 15th. It is hoped the new church will be completed by that time.

Mendenhall, Hunter & Co's. teams are kept busy carrying passengers to the Hot Springs. The washouts make lively times for the lively men.

The lath for the new Plaza Hotel is being placed upon the ground. The contract for plastering the hotel has been let and the work will be commenced in a few days.

We call attention to the reorganized advertisement of C. R. Browning, the real estate and insurance agent. He represents the oldest, the largest and the best insurance companies in the world.

Mr. Le Duc, one of our most popular merchant tailors, has more work than he can do. He advertises in another column for a good coat maker. This is a good situation for a man that wants to succeed.

The ladies of the Presbyterian church have taken it upon themselves to furnish the seats for their new edifice. At a meeting of the society yesterday morning it was determined to seat the new building with black walnut pews.

Another comet is visible to the naked eye in the northwestern heavens. In the older times war, bloodshed, and assassination and destruction by flood and fire were portended by these celestial visitors. Now they are regarded as harmless.

C. R. Browning while convalescing, last week, sold property to T. T. Woodruff, of Trinidad, Thos. Carson, Mr. Johnson and several other gentlemen to the amount of \$8,000. This is a good enough showing for a well man to make.

The ladies of the Presbyterian church will give a social for the enjoyment of the public on Wednesday evening at the church on the west side. All citizens and visitors in the city are cordially invited to come and spend a pleasant evening.

Messrs. Marwede, Brumley & Co., dealers in hardware, are now snugly established in their new building. They now have room to display their stock of goods, which is not surpassed for completeness in the West. They are working up a fine trade in the hardware line.

The contract for the construction of I. Stern's new house was let yesterday. Mr. Prichard has the contract for the brick work, J. B. Baker, for the wood work, and J. B. Wooten the mouldings. The house is estimated to cost four thousand dollars and everything will be first class. The corners will be made of dressed white sandstone.

Five days mail for the south was taken to the depot to be taken south on this morning's 8:30 south bound train. Transfers will be made both ways today and we are in hopes the mails from the south will make their appearance. The mails here destined for the southern country were all Las Vegas mails and made a regular wagon load.

Dr. Henriques' horse ran away yesterday afternoon and smashed the buggy to some extent. He was just getting into the buggy as it was brought out of the corral, when the horse shied, jumped and got away, throwing the Doctor against the wall but doing no further damage. The horse ran up over the hill upsetting the buggy and dragging it for some distance.

Miss Agnes Wilson, sister-in-law of Mr. J. Ost, of the railroad material store, died at the residence of Mr. Ost, Sunday. She had been an invalid for some months. A few days since the disease assumed a more serious character and Sunday she quietly passed away. She was buried yesterday afternoon in the Odd Fellow's cemetery. Rev. J. C. Eastman of the Presbyterian church, performed the ceremonies.

Consolidated Prospecting Company.

The Consolidated Prospecting Company have filed their articles of incorporation with the Secretary of the Territory and have their constitution and by-laws, rules and regulations printed and are now ready for business. The officers of this company are: E. N. Akeley President; Jay Byrne, Vice-President; A. V. Griggs, Secretary and N. G. Browne, Superintendent. The object of the company is to facilitate intelligent prospecting and the development of mining properties in this and adjoining territories. The plan upon which the company will operate is a perfectly feasible one and we doubt not but that it will prove an important means in furthering the development of our mineral resources. It has in it the germ of a large and powerful organization should success crown the initiatory enterprises. The principal offices are fixed by the charter at Las Vegas.

The Little Mack.

Mr. P. C. Lyman, father of the White Oaks assayer, came up from White Oaks yesterday. He has been at that camp several months and is now on his way East. He brought up some very fine specimens of free gold taken from the Little Mack mine at a depth of twenty feet. The ore shown was very fine and the gold carried appeared to be of the finest quality. One nugget worth \$19 has been taken out. This mine hitherto has not been developed to any great extent, and but little is known of its vast richness until lately. The rich development of this mine is only another proof of the vast wealth of the White Oaks region. But little real work has ever been done in that district up to the present time. True, there has been a great many prospectors in that country, and most of them have taken claims and done their assessment work, but that is not all that is needed. It takes something more than assessment work to show up a mine properly as has been demonstrated in the case of the Little Mack and a number of other mines in that district. Because the gold does not crop out on top of the ground is no proof that none exists underneath. It may be only a few feet or it may be a hundred feet or more. The convulsions that threw up those vast deposits, threw the gold-bearing rock to the surface at some places, but mostly it was covered up by the coarser rocks that lay on top in their natural position. The White Oaks and Jicarillas are among the richest gold-bearing mountains in the West. It will take the expenditure of considerable work and money to bring these mines properly before the public. This, however, will come in time. The town of White Oaks is still continuing to improve, thus showing that capital is steadily going in that direction. The Nogal district is also showing up well, and as one camp increases in population and wealth the other one will grow apace.

LORENZO LABADIE,
MARGARITO ROMERO.

The Hot Springs District.

LAS VEGAS, Aug. 21st, 1881.
Whilst on a visit to the Hot Springs yesterday I made a hasty examination of the surrounding country. I must say I think the mineral indications are more than hopeful of ultimate success when properly developed. And for so doing the facilities are greater than to be met with in any mining district that I have yet visited since my arrival in this country. In my examination of the metalliferous stratifications I find the leads to contain traces of both gold and silver sufficient to warrant a speedy development of the various lodes or claims situated in the vicinity. I trust shortly to make a more elaborate examination of the locality.
J. M. FENROSE M. E.

PERSONAL.

J. H. Wise is up from White Oaks.
W. H. Anderson is over from Watrous.
P. Walsh of Topeka is stopping in town.
R. Wolfson of Chicago is doing Las Vegas.
Frank Sperling, of Tascosa, Texas, is in town.
George Randall is down from the Hot Springs.
W. M. Protzman, of Osburn, Ohio, is a late arrival in town.
J. E. Walker of Iowa is registered at the St. Nicholas Hotel.
C. W. Word, of Kansas City, is registered at the Sumner House.
A. C. Vanderburgh and E. Holt of Chicago are registered at the Depot Hotel.
J. B. Collier left for the White Oaks yesterday. He has been in this city for several weeks in attendance on court.

Miss May and Maggie Hastings, young ladies who have many friends in this city arrived yesterday and went out to the Springto spend a week.

Mrs. A. O. Robbins and children went east yesterday. She will place her two oldest daughters at school and will remain some weeks herself and visit with friends.

John Slosson is up from the Santa Rita copper mines. These mines have lately changed hands and a thorough-going policy has been adopted. Work will be pushed forward without regard to cost.

Mr. T. M. Rogers, editor of the Quincy Daily News, of Quincy, Illinois, called at the GAZETTE office yesterday. Mr. Rogers has been visiting in Colorado but thinks New Mexico is a much better country than our sister State.

M. Brumswick, in company with Gov. Jacob and party started for White Oaks. They secured T. Romero's four mule ambulance and started over-land. The party was well prepared for the journey and all hands were armed to the teeth with six-shooters and Winchester rifles.

H. W. Clifford returned from the mines in Gallinas canyon yesterday. He had a hard day among the hills and looked considerably fatigued on his return. He is visiting this country in the interest of the New York mining board and is therefore thoroughly examining the mines of this Territory.

C. P. Treat of Trinidad came in Sunday and went out to the Hot Springs. He talks of investing in Las Vegas real estate. This fact is significant and rather points to the building of one or the other of the two projected roads from the north. Mr. Treat is well versed in railroad affairs and is likely to know where he is investing his money.

We were favored yesterday with a visit from Mr. A. P. Huggins, the artist agent and Judge Charles W. Clarke, of Greenville, Tennessee. Judge Clarke is one of the leading Republican politicians of his State and invariably carries his district for the Republicans in spite of tissue ballots and shot guns. He is a gentleman of very pleasing address and intelligent conversation. He expresses surprise at the natural resources of New Mexico and supposed until his arrival here that it was a barren and worthless desert.

El Paso.

The Mexican Government has made El Paso del Norte a post for 3,000 soldiers. This post is also to be made a free port of entry. This will make El Paso one of the best business points in the West. El Paso already numbers a substantial and energetic class of business men among her inhabitants and when she shall be made the gateway for Old Mexico and with the large number of roads centering there from all parts of the country, her advantages will become almost incalculable. El Paso will then become one of the finest wholesaling points in the West, as well for fruits as all other classes of merchandise. It is only the question of a few months before the business merit of that city will have positive proofs that they have made a wise choice in the selection of their places of business.
